

Hidden Mischief

A program to help adults understand current alcohol and drug trends for youth and what to do if you suspect a youth is experimenting.

This interactive program showcases a lifelike teenage "bedroom" to educate adults about teen use of alcohol, tobacco, and other drugs. **Hidden Mischief** participants search for hidden substances and paraphernalia. Immediately following, our prevention educator leads an in-depth discussion about the methods to conceal substances, drug culture references, and current trends.

WHO IT'S FOR

- Parents, grandparents, and caregivers of teens
- Teachers and school staff
- Social service and juvenile justice caseworkers
- Anyone who cares about youth health and safety

WHO IT'S NOT FOR

- This presentation is meant to educate adults only. It is not appropriate for youth to attend.
